

### PRODUCT DESCRIPTION

Paraterm bar AU is an aluminium alloy especially formulated to exhibit excellent holding power. The high strength assures bowless installation when installed per the pre-drilled holes.

### USAGE/PURPOSE

Paraterm bar AU is used in conjunction with Tremco's Paraseal waterproof membrane to form an impervious waterproof system. It is used to mechanically fix and seal the perimeter termination of the Paraseal waterproof system against the structure.

When fastened through the pre-drilled holes, Paraterm bar AU provides a tight and straight pressure seal, as well as providing sufficient sealant troughs and drip edges for suitable water ingress protection.

### PACKAGING

- 3.03 metre lengths

### STOCK COLOURS

- Silver

### SHELF LIFE

Indefinite when stored as recommended in original unopened packaging.

### STORAGE

Store in an upright position to avoid bending or other physical damage.

### HEALTH & SAFETY PRECAUTIONS

The Safety Data Sheet (SDS) must be read and understood prior to use.
